

## EDUCATION

---

- **JNTUH University College of Engineering, Science and Technology Hyderabad** 2021-2025  
B-TECH, Computer Science and Engineering
- **SR Junior College, Warangal** 2019-2021  
Board of Intermediate Education, Telangana
- **Kendriya Vidyala Air Force Station, Begumpet** 2019  
Central Board of Secondary Education

## EXPERIENCE

---

- **Blockmatrix IT Solutions Pvt.Ltd** June 2024 - August 2024  
UI UX DESIGNER AND FRONT END DEVELOPER
  - Designed and developed 3 responsive web layouts using Figma and React.js with a focus on usability and system reliability.
  - Collaborated with clients and cross-functional teams to gather requirements and implement scalable solutions aligned with business goals.
  - Contributed to the early delivery of a high-priority project, ensuring performance, availability, and smooth deployment.
  - Applied troubleshooting techniques to resolve front-end bugs and improve application stability.

## PERSONAL PROJECTS

---

- **Task Management Web App**  
A web app where users can create, update, and delete tasks with a clean UI and backend API.
  - Built a full-stack Task Management web app using Node.js, Express, and SQL for backend with RESTful APIs.
  - Developed interactive frontend with HTML, CSS, and vanilla JavaScript for task creation and management.
  - Designed and optimized SQL queries and database schema for efficient data storage and retrieval.
  - Practiced basic deployment steps and version control using Git.
  - **Skills:** Node.js, Express.js, SQL, REST APIs, HTML, CSS, JavaScript, Database Design, Git, Deployment Basics
- **Personal Blog Website**  
A blog site where users can register, create posts, edit, and delete their blogs.
  - Developed backend services with Node.js and Express, implementing user authentication and CRUD operations.
  - Created dynamic frontend pages using HTML, CSS, and JavaScript for seamless user interaction.
  - Managed data persistence using SQL database and wrote stored procedures for efficient data handling.
  - Gained hands-on experience in source control and deployment fundamentals.
  - **Skills:** Node.js, Express.js, SQL, Stored Procedures, Authentication, CRUD Operations, HTML, CSS, JavaScript, Git, Deployment

## TECHNICAL SKILLS

---

**Programming Languages:** Java, Javascript, HTML5, CSS3.

**UI/UX & Design Tools:** UI/UX, Wireframing, Prototyping, Figma.

**Libraries & Frameworks :** React.js, Express.js

**Databases:** SQL, MongoDB

**Version control:** Git/GitHub

**Cloud (Learning):** AWS, CI/CD

**Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Operating Systems, Networking, SDLC

**Others:** Deployment Workflow, Agile Concepts, Rest APIs

**Soft Skills:** Problem-solving, Collaboration, Leadership

## POSITIONS OF RESPONSIBILITY

---

- Mentored 15+ Juniors in Java, Dsa and CS fundamentals through weekly sessions and mock interviews.
- Solved 100+ questions on competitive Programming platforms.
